Office Action Summary	Application No. 10/517,571	Applicant(s) VETTER, THOMAS	
	Examiner Ren L. Yan	Art Unit 2854	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 2-5, drawn to a device for processing the surface of an object.

Group II, claim(s) 6-7, drawn to a device for processing the surface of an object.

Group III, claims 8-9, drawn to a device for processing the surface of an object.

Group IV, claim 10, drawn to a device for processing the surface of an object.

Group V, claims 11-21, drawn to a device for processing the surface of an object.

Group VI, claims 29-35, drawn to a device for processing the surface of an object.

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The requirement of the processing station comprises a printing unit in Group I invention is not required by the other inventions groups. In invention Group II, the requirement of the objects are symmetrical about a rotational axis is not required by the other invention groups. In invention group III, the required cycle apparatus and its functions are not required by the other invention groups. In invention group IV, the required starting signals generated in the central controller and individual processing stations may be started independently are not required by the other invention groups. In invention group V, the requirement of determining the duration of the transmission of the clock pulse to a processing station and thus control the duration of the function of the processing station by the central controller is not required by the other invention groups. In invention group VI, the requirement that the clock pulse is derived from the cyclically and currently detected position values and detection times of the position values derived from the transport of the object being processed is not required by the other invention groups.

Art Unit: 2854

It is noted that independent claim 1 is a linking claim that links all invention groups I-VI together. Accordingly, claim 1 will be examined together with any of the elected invention groups I-VI.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ren L. Yan whose telephone number is 571-272-2173. The examiner can normally be reached on 8:30am-5:00pm.
